

LET'S. GET. VIRTUAL.

WITH

zoom

Since 2011, CEM has hosted over 33,000 one-on-one meetings between issuers and investors; this resulting in over 700M in transactions.

As we adjust and respect social distancing, it is still our mission to continue connecting capital with opportunity by leveraging our contacts within the investment community virtually - using Zoom. By engaging with our investors in a virtual one-on-one environment, you will have curated access to build relationships that lead to financings, open market support and increased awareness with top-tier capital market participants.

These virtual one-on-one meetings will operate under the same 20-minute meeting guidelines as our live events + an additional 10-minutes for introductions and closing questions/remarks. As a newly added benefit, we will also host an onboarding meeting with you beforehand to provide Zoom setup support, feedback on presentation content/format and how to best engage the investor in your allotted timeframe.

INTRODUCING THE 2020
